Figure 1 illustrates the construction of a 3D grid of points, divided into four sections labeled 83, 84, 85, and 86. Each section shows a 3x3 grid of points, with some points enclosed in circles. The grid is constructed by adding points to the previous section. For example, in section 83, points are added to the top row (1, 2, 3) and the bottom row (0, X, 0). In section 84, points are added to the middle row (3, 0, 1) and the bottom row (3, X, 3). In section 85, points are added to the top row (3, 0, 1) and the bottom row (3, X, 3). In section 86, points are added to the top row (0, 3, 1) and the bottom row (1, X, 1). The grid is constructed by adding points to the previous section.
